## Medical Assistance Transportation Program — Eligibility Guidelines

In keeping with the maintenance of effort policy of the PwD project, transportation providers and their subcontractors, if appropriate, are required to refer Medical Assistance Transportation Program (MATP) eligible clients to that program for funding for their medical trips.

The County Assistance Office (CAO) provides individuals who are eligible for MA with an ACCESS card. Eligibility for MA and MATP is confirmed through the Department of Public Welfare's computerized Eligibility Verification System or EVS. All MATP providers are required to verify a client's MATP eligibility through EVS, which can be accessed by telephone, a point of sale device, or through an EVS provided computer disk. MATP eligibility verification information must be recorded.

If a transit provider is not also the MATP coordinator, then the transit provider must request the MATP coordinator to check on a client's eligibility status through EVS or the client must be referred to the CAO for an assessment of MA eligibility. The transit provider must notify the client of his/her referral to the CAO prior to making the actual referral.

Clients of the PwD project, whose incomes indicate a possible eligibility for MA, must be referred to the CAO for a determination of eligibility for MA and other programs. A client who is determined eligible for MA is also eligible for the MATP. PwD providers must then refer them to the MATP for funding of their medical trips. Clients must also receive notification of the CAO referral in advance.

### *Documentation of Disabilities*

The transit provider must obtain documentation of the disability as identified by the applicant. Transportation authorities that have established ADA eligibility determination procedures can use these procedures as a base for the pilot project's disability eligibility determination.

All agencies should accept the eligibility determinations and documentation that have been prepared by organizations and programs that interact with the disability community. **Examples** of these agencies and programs include the following:

- Social Security Administration's SSI and SSDI eligibility determinations and supporting documentation, such as a SSDI card.
- Washington County Transportation Program's (WCTP) disability determination form to be completed by a physician or agency. A copy of the form is provided as Attachment B.
- Office of Vocational Rehabilitation's (OVR) establishment of a mental or physical disability through its Comprehensive Medical Examination. A copy of this form is Attachment C.
- Attendant Care Program qualifying disability: any medically determinable physical impairment that can be expected to last for a continuous period of not less than 12 months. The standard form used by this program is included as Attachment D.
- A qualifying disability through the Community Services Program for Persons with a Physical Disability. A medically determinable condition, excluding primary diagnoses of mental retardation or mental illness, expected to continue indefinitely; and resulting in at least three of the following six substantial functional limitations: self care, understanding and use of language, learning, mobility, self direction, and capacity for independent living. This program's OSP/Independence Eligibility Review form is Attachment E.
- The Certification of Disability Form that has been developed for the pilot project. This form, which is Attachment F, provides verification that an applicant has a disability according to the definition in the Americans with Disabilities Act. If there is no organization available to provide the disability documentation, then the transit provider should use this form to acquire the necessary information for determining eligibility from a qualified medical provider.

The transit provider may also permit another agency to complete the Registration and Eligibility Form. This is acceptable if all of the necessary eligibility documentation is provided to the transit provider with the application.
